# Great moments in the history

The Big Bang

Early portable alarm system swings into action.

The beginning of a new era: Automated Logic Corporation is founded.

Egyptian pharaohs devise earliest form of air conditioning.

Initial test marketing of totally automated cooling systems.

Development of first entirely contained atmospheric control system.

of building control innovation.

Automated Logic  
introduces  
Supervision, the  
interactive, graphical  
control interface.

Automated Logic  
introduces  
Freedom with its  
seamless integration of  
multiple BACnet  
communications.

Another first: the first  
Automated Logic  
pioneers graphic  
programming to  
revolutionize building  
control.

Another perfect  
partnership:  
Automated Logic  
launches its Joint  
Venture Network,  
partnering with  
authorized dealers  
coast to coast.

The 2005 operating  
system is launched.

## February 7, 2000: the Next Great Moment.

So where are  
innovations in  
building control  
headed? Toward  
the internet,  
open standards and  
complete operational  
freedom. And who's  
leading the way?  
**Automated Logic**,  
of course! Come  
see what we're  
up to this time - visit  
us at **Booth #2411**  
at ASHRAE.
